

Laurence Baer shines a bright light on the astounding work that our Heavenly Parent is accomplishing at this time through Holy Mother Han, to unite the Spiritual and Physical realms, and in so doing, bringing all faith traditions into harmonious reconciliation.

Bruce Grodner, Secretary General,
World Christian Leadership Conference

In 2026, as the two-thousand-year Church Age draws to a close, a profound prophetic realignment is unfolding through Holy Mother Han. This humble great-grandmother—currently a political prisoner in South Korea—has emerged as a central figure in humanity’s spiritual transition. Her life and mission embody a mature form of divine authority, inspiring leaders and believers from nations around the world.

As first chronicled in Ezekiel, God’s angels are again now mobilized—only far more powerfully. *Holy Mother Han and the Fifth Pledge* documents this unfolding transition—the dawning Millennium when God’s Kingdom becomes increasingly visible in human affairs. With evidence-based spirit communication involving both humans and angels, the book reveals how heaven and earth are being re-aligned in real time.

Through Holy Mother Han’s work, mankind is witnessing unprecedented spiritual transformation, ancestral healing, and the restoration of God’s lineage for billions of souls—including both victims and perpetrators of historical tragedies. Each night, participants at more than 20,000 global venues join in tearful devotion to support this process.

Holy Mother Han has opened the long awaited Third Temple, the starting point through which God can dwell on Earth and mankind can experience Intimacy with God. Readers are invited to actively participate in God’s amazing work.
